Government and non-government sectors in Saskatchewan and around the globe are dealing with complex issues such as food security, climate change, immigration and poverty. They need skilled and knowledgeable employees with the capacity to identify key issues and problems, analyze them systematically, and reach sound, innovative conclusions.

This is where we can help.

Join us to learn about our graduate programs and take the opportunity to connect with some of our alumni currently working in government and in non-government organizations.

DID YOU KNOW?: 87% of students in our 8-month, paid Executive Internship program transition to full-time employment, following completion of their master's degree.
