We live in a complex and rapidly changing world where there is a real need for well-run public and non-governmental agencies. Nationally accredited, the Johnson Shoyama **Master of Public Administration** program prepares graduates to take on leadership roles in these organizations. Make a difference in your community by understanding how decisions are made and implemented.

Join us on March 29 to learn and ask questions about our program and school, and take the opportunity to connect with some of our alumni currently working in government and in non-government organizations.

DID YOU KNOW?: 87% of students in our 8-month, paid Executive Internship program transition to full-time employment, following completion of their master's degree.
