

THE ADAPTABLE COUNTRY: HOW CANADA CAN SURVIVE THE TWENTY-FIRST CENTURY

About the presentation:

Join us as author **Alasdair S. Roberts**, Professor of Public Policy, University of Massachusetts Amherst, discusses how adaptability is the overlooked key to Canada's survival in turbulent times in the context of his upcoming book, *The Adaptable Country: How Canada Can Survive the Twenty-First Century*.

Shifting geopolitics, regional conflicts, climate change, and technology shocks: these are just some of the factors that will make the twenty-first century dangerous for Canada. Our speaker will outline straightforward reforms to improve adaptability and remind us about the bigger picture: in a turbulent world, authoritarian rule is a tempting path to security. Canada's challenge is to show how political systems built to respect diversity and human rights can also respond nimbly to existential threats.
