

CSIP INNOVATION FORUM

Science, technology and innovation policy is essential in shaping our future. Translating the narrative into clear options, strategies and outcomes is necessary, but far from simple.

Thurs., November 3, 2022
12:00 - 1:00 p.m. (CST)

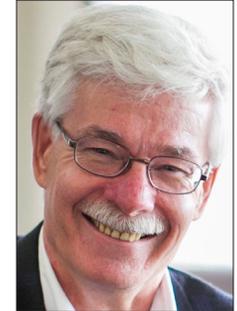

Delivered by Zoom.

WHERE IS INNOVATION POLICY IN CANADA INNOVATIVE?

PETER W.B. PHILLIPS, DISTINGUISHED PROFESSOR, JOHNSON SHOYAMA GRADUATE SCHOOL OF PUBLIC POLICY

CSIP Director and JSGS Professor Peter Phillips will present findings from his recent pan-Canadian research project on provincial and territorial science and innovation policy. His team, with representatives from every province and the territories, found some significant challenges impairing performance and opportunities for accelerating innovation across our continental economy. He will present a brief overview of the findings from his book co-edited with David Castle: *Ideas, Institutions, and Interests: The Drivers of Canadian Provincial Science, Technology, and Innovation Policy*.

The Centre for the Study of Science and Innovation Policy (CSIP) invites all students, faculty, researchers, and citizens interested in the study of science, technology and innovation policy to participate in a bi-weekly forum.
