First Nation communities are facing tremendous challenges in the face of growing demands of community members and keeping pace with the economic activity throughout Saskatchewan.

The **Indigenous Leadership Program** will enable community leaders and those that work with communities to learn about the legislative frameworks that impact their members, the skills and capacities needed for effective leadership, the main principles of good governance, and effective ways to engage communities. By the end of this workshop, participants will have an understanding of:

- The legislative frameworks and how they impact First Nations in Saskatchewan;
- Good public administration tools and have management oversight skills;
