Colin Robertson will describe the crisis facing the new Biden Administration - health, economic, climate, social, political - and what this means for Canada. For Canada in the world, it is still the USA and then the rest. The USA continues to be our main trading partner and the USA defence shield guarantees

our security. As joint tenants in North America we also have to manage our environment together. The odious Donald Trump may be gone but almost half of America backed him in the last election and many of those continue to believe the election was stolen. Amongst the questions Colin will address: What will Mr. Biden expect from Canada? What can Canada expect from Mr. Biden? How do we advance Canadian interests in a divided America?

A former Canadian diplomat, **Colin Robertson** is Vice President and Fellow at the Canadian Global Affairs Institute and hosts its regular Global Exchange podcast. He is an Executive Fellow at the University of Calgary's School of Public Policy and a Distinguished Senior Fellow at the Norman Paterson School of International Affairs at Carleton University.
